Miamisburg, Ohio 45342

## JOB DESCRIPTION

*Division/Department:*

**Contracting**

*Location:*

**Miamisburg, Ohio**

*Job Title:*

**Sprinkler Pipe Fitter**

*Reports To:*

**Sprinkler Field Superintendant**

*Type of Position:*

**Full-time Hourly (Monday - Friday 7:00 am - 4:00 pm) - Nonexempt**

*General Description:*

The primary focus of this position is working for the sprinkler contracting dept. performing installation of a variety of sprinkler and special hazard fire suppression systems for new or existing construction. The fitter will perform installation tasks according to the guidelines and procedures established by NFPA, equipment manufacturer, A1 Sprinkler, and the Authority Having Jurisdiction. This is a full time position with occasional overtime. This position has no supervisory responsibilities.

*Essential Functions:*

Knowledge of NFPA 13 and NFPA 25. Ability to read blueprints. Capability of solving installation challenges of suppression/sprinkler systems. Pull job material requirements as required. Cut, fabricate (groove/thread) and install pipe according to job specifications. Set up and operate various pipe cutting, and threading machinery. Make hydraulic pressure tests of piping installations. Check and adjust controls, gauges and valves to achieve control of flow or pressure. Report deficiencies. Bring job in on a timely and profitable basis. Generate new revenue by submitting leads. Fluent in reading, writing, speaking and understanding English. Ability to communicate professionally in "layman" terms. Have the ability to direct and help train a fitter helper on the jobsite.

*General Functions:*

Communicate effectively with general contractors and site superintendants as needed. Communicate and work effectively with coworkers. Show up to work on time. Attitude and actions are in line with the company's mission statement, vision and values. Show initiative by sharing ideas.

*Qualifications, Experience and Education:*

Minimum 2 years experience working in the sprinkler/plumbing field required. Minimum 2 years experience working in the fire protection field. Backflow experience preferred. Must be able to perform simple tasks independently after being given assignments. Ability to read and understand construction drawings and plans, understand basic measurements, etc., have excellent customer service skills and be computer literate. Must be well organized, self motivated, flexible and team player. Must be able to procure required licenses/certifications. Have and maintain a valid drivers license. Must be able to understand and comply with OSHA and the company's safety and employment policies. Must be able to work flexible hours and overtime as needed.

*Working Conditions: (The physical efforts and working conditions are not limited to those listed in the job posting and may change at any time)*

Daily schedule may consist of work to be performed on various job sites. Jobs sites may be located in Ohio and other states, consisting of indoor and outdoor work (exposure to cold and hot weather elements). Frequently required to work at various heights and on lifts. Continuously works with others and has customer/public contact, frequently works alone. Continuously lift up to 50 lbs. and frequently carry up to 100 lbs. While performing the duties of this job, the employee is occasionally exposed to moving mechanical parts and vehicles. The employee is regularly required to stand, walk, reach with arms and hands, climb or balance, and to stoop, kneel, crouch or crawl. Job sites may include construction sites and other locations where personal protective equipment will be required. Job sites may include confined spaces, pits, crawl spaces, attics, and confined rooms. The position has occasional periods of stress and sleep deprivation.

**Physical Requirements:**

Ability to understand and follow verbal and written instructions, concentrate, make decisions, adjust to change and observe details continuously. Possess manual dexterity and strength sufficient to operate/grasp tools and machinery necessary for the job. Continuously lift up to 50 lbs. Frequently carry up to 100 lbs. Must be able to exert one's self physically over long period of time without getting winded or out of breath. Have sufficient physical strength to lift and manipulate valves, cylinders, piping and any other material necessary for the job. Sufficient physical agility to work regularly in awkward places and from ladders, stairs, ramps or scaffolding as required by particular job. Must be able to continuously stand, walk, and climb to use ladders and perform various types of manual labor. Frequently required to crawl, crouch, twist, bend, push, pull, and use legs repetitively.
